To All Departments:

**RE: Upcoming Face-to-Face NFPA Alternative Fuel Vehicle Train-the-Trainer Workshops**

The JIBC Fire & Safety Division is pleased to announce limited face-to-face offerings of its Alternative Fuel Vehicles “Train-the-Trainer” workshops for fire department staff.

These workshops are available at no cost to Fire Department Training Officers thanks to the support of the Fire Chiefs Association of B.C.

This training provides the tools and information needed by firefighters and other emergency responders to safely handle emergency situations involving alternative fuel vehicles, such as electric, hybrid, hydrogen fuel cell vehicles, and their respective fueling facilities.

The workshops will be held on:

- Saturday, March 6, 2021 – 8:30 a.m. – 4:30 p.m. at the JIBC New Westminster Campus
- Saturday, March 13, 2021 – 8:30 a.m. – 4:30 p.m. at the JIBC Maple Ridge Campus
- Saturday, March 20, 2021 – 8:30 a.m. – 4:30 p.m. at the JIBC Maple Ridge Campus

Upon completion of the course, students will be able to return to their department and deliver this course in-house. Each participant will receive an instructional resource package.

Due to the expected strong interest in these workshops and the limited seating because of COVID-19 safety requirements, registration is limited to 2 members per department.

Register online for one of the workshops on the [FIRE-1175A Alternative Fuel Vehicle Safety Training for First Responders](#) page. Select one of the on-campus options.
